## DIS-TRAN PACKAGED SUBSTATIONS ANNOUNCES NEW PRESIDENT

*Brad Fontenot*  
*President, DIS-TRAN Packaged Substations*

**Pineville, LA:** We are pleased to announce the promotion of Brad Fontenot to President of DIS-TRAN Packaged Substations (DTPS), effective immediately. As Vice President of Project Support Services (PSS) since January of 2017, Brad worked alongside the DTPS Team to build an understanding of all aspects of the packaged substation business and the growing organization. Brad empowered the PSS Team to deliver outstanding pre-fabricated, factory built products to our customers while building critical systems and work processes to support this expanding product line.

Brad comes to DTPS with a chemical engineering degree from LSU and business and operational management experiences at Natural Advantage, Dow Chemical and Novolyte Technologies.

Please join us in congratulating Brad on his new role as President of DIS-TRAN Packaged Substations. His leadership will continue to drive the DIS-TRAN Packaged Substations' team to deliver innovative services and products to the electric power delivery industry.
